Soft Skills   Problem solving, Teamwork, Communication, Time Management, Adaptability, Analytical Thinking, Technical Documentation, Logical Thinking, Quick learner.

Tools & Platforms Visual Studio Code, GitHub, Git, Eclipse, STS, Canva.

EXPERIENCE

Java Full Stack Developer   Feb 2024 - Dec 2024
JSPIDER (Training Institute)   *Bengaluru, India*

- Proficient in SQL for database design and querying.
- Skilled in using HTML5, CSS3, and JavaScript for web development.
- Experienced in Java, Spring Boot, Spring MVC, Hibernate, Servlets and JDBC for back-end development.

Dot Net Full Stack Developer   Aug 2023 - Sep 2023
Karunadu Technologies Pvt. Ltd.   *Bengaluru, India*

- Built a full-stack inventory app with C# and .NET using static data.
- Created a responsive UI with HTML, CSS, and JavaScript for easy inventory management.
- Developed the backend using C# and MySQL for CRUD operations.

PROJECTS

Detection of Exploit Websites Using Machine Learning and Data Analysis (Final Year Project):
- Designed a machine learning model to detect fraud, reduced false positives, improved response times, and enhanced website security.

Stock Management System (Internship Project):
- Improved data accuracy by managing inventory and employee records, enhanced user experience with a UI for strategy selection, and increased efficiency through real-time inventory visualization.

College Directory Application (CDA):
- Developed the backend for a College Directory Application using Spring Boot and PostgreSQL, designed a RESTful API with Swagger documentation, and created structured endpoints to manage college-related data effectively.

CERTIFICATES

- Certification in Java Developer.
- Dot Net Full Stack Developer.
- HackerRank Python (Basic) Certificate.
